

# NATURALIS®

## COMPATIBILITY CHART

### FUNGICIDES

Rev. November 2018

ACTIVE INGREDIENT	BRAND NAME	COMPATIBLE
AMYSULFOBROM	LEMAY	YES
<i>Ampelomyces quisqualis</i> isolate M-10	AQ 10 wg	YES
AZOXYSTROBIN	QUADRI	NO
<i>Bacillus amyloliquefaciens</i> strain D747	AMYLO-X	YES
<i>Bacillus subtilis</i> strain QST 713	SERENADE MAX	P
POTASSIUM BICARBONATE	VITIKAPPA/ARMICARB	YES
BENALAXYL	GALBEN	YES
BOSCALID	CANTUS	YES
BUPIRIMATE	NIMROD	NO
CAPTANO	several	NO
CEREVISANE	ROMEO	YES
CHLOROTHALONIL	DACONIL	NO
COS-OGA*	IBISCO	YES
COPPER HYDROXIDE *	several	YES
COPPER OXYCHLORIDE*	Several	YES
CYAZOFAMID	RANMAN	YES
CYMOXANIL	CURZATE	NO
CYPROCONAZOLE	ATEMI / CADDY	NO
CYPRODINIL	CHORUS	YES
CYPRODINIL + FLUDIOXONIL **	SWITCH	NO
DIFENOCONAZOLE	SCORE 25 EC	YES
DIMETHOMORPH	FORUM 50 WP	NO
DIMETHOMORPH + IDROSSIDO DI RAME	FORUM R	NO
DODEMORPH	BASF - MEHLTAUMITTEL	P
FAMOXADONE + CYMOXANIL	EQUATION PRO	P
FENAMIDONE	ORACLE	YES
FENHEXAMID	TELDOR	YES
FENPYRAZAMINE	PROLECTUS	NO
FLUOPYRAM	VELUM PRIME	YES
FLUPICOLIDE + FOSETYL ALLUMINIO	ERRESEI ALBIS	NO
FOSETYL-A	ALIETTE 80%	YES
FLUOPICOLIDE + PROPAMOCARB	VOLARE	NO
IPROVALICARB	MELODY COMPACT	YES
ISOFETAMID	KENJA	YES
KRESOXIM METHYL	STROBY	NO
MANDIPROPAMID	PERGADO	NO
MEPANIPYRIM	FRUPICA	NO
MEPTYLDINOCAP	KARATHANE STAR	NO
METALAXYL-M	CUMETA FLOW	YES
METRAFENONE	VIVANDO	YES
MYCLOBUTANIL	THIOCUR	NO
ORANGE OIL	PREVAM PLUS	YES
OXATHIPIPROLIN	ZORVEC	YES
PENCONAZOLE	TOPAS	NO

PRINCIPIO ATTIVO	NOME COMMERCIALE	COMPATIBILITA'
PENCYCURON	MONCEREN	YES
PENTHIOPYRAD	FONTELIS	NO
BORDEAUX MIXTURE*	several	YES
PROPAMOCARB	PREVITER	NO
PROPINEB	ANTRACOL	NO
PROQUINAZID	TALENDO	YES
PYRIMETHANIL	SCALA	NO
QUINOXYFEN	ARIUS	YES
POTASSIUM SALT	FLIPPER	YES
POTASSIUM SALTS OF FATTY ACIDS*	NEUDOSAN	YES
SPIROXAMINE	PROSPER	NO
TEBUCONAZOLE	FOLICUR	NO
THIOPHANATE-METHYL	several	YES
THIRAM	several	P
TRIFLOXYSTROBIN	FLINT	NO
SULPHUR ***	THIOVIT	YES
SULPHUR	MICROTHIOL DISPERS	NO
SULPHUR ****	HELIOUSOFRE S	YES
ZOXAMIDE	ZOXIUM	NO

\* If it is necessary to tank-mix with NATURALIS, use the minimum dosage according to product label.

\*\* Keep 10-12 days interval before/after NATURALIS applications.

\*\*\* Thiovit has been tested at 300 and 500 g/hl.

\*\*\*\* Heliosoufre S has been tested at 200 and 400 ml/hl.

## LEGEND

YES	COMPATIBLE, it can be tank mixed without any significant impact on spore germination of NATURALIS.
P = PARTIAL	PARTIAL, the formulated product partially harm spores germination of NATURALIS. Always prefer minimum dosage and apply as soon as possible after mixing.
NO	NOT COMPATIBLE, tank mix is not possible with NATURALIS. Keep 3-5 days interval before or after NATURALIS applications.

### INSECTICIDES / ACARICIDES

NATURALIS can be tank mixed with several insecticides and acaricides, e.g. flonicamid (Teppeki), abamectin (Vertimec 1.8), spinosad (Laser), acetamiprid (EPIK) without any significant reduction in spore germination.

### FERTILIZERS

NATURALIS can be tank mixed with soluble fertilizers without any significant reduction in spore germination. Tests were carried out at fertilizers concentrations of 0,3 and 3 % w/v<sub>water</sub>.

**Note:** Products tested in this document have been evaluated at suggested dosage according to product labels. Brand names are reported in the Compatibility Chart as an example of the active ingredient (a.i.), other formulations of the same a.i. might have different impact on spore germination of NATURALIS. In the event of mixing with more than one a.i. please refer to the compatibility of the "worst case". Do not mix any formulated product and NATURALIS in concentrated forms.

The present edition of Compatibility Chart is intended for international purposes, some formulated product/a.i. might not be authorized in some countries and/or crop. CBC (Europe) S.r.l. and the local distributor decline any liability for any loss or damage deriving from use of the products listed.
